Subject: Case #01479-12/ Follow-up

Leigh,

Got your emails and note--doubtful we can meet today, just too many matters pressing in. In terms of the requestor, your last email said you would give a status today, so just share with the requestor where you are...waiting for more input and not able to do a projected completion date yet...

For the ORD offices you have all the data except your office--NERL and NRMRL were the only offices with records and they communicated their input to you. For the EPA offices, OW has already said they have no records. The next step is to ask OA and OICR if they have records--send them an email

letting them know you are the ORD lead for the case and need to know if they have any records. This then is your records collection universe.

I can resend previous letter samples forwarded to you for other OSP responses-- you'll just have to adjust the 'middle' paragraph to reflect the circumstances of the current case, like mentioning the EPA offices involved in providing records.

Let me know if you have more questions.

Abbie
